

## **CALDWELL COUNTY APPRAISAL DISTRICT LOCAL ANNUAL REPORT 2016**

### **Caldwell County Appraisal District Mission Statement**

We are required by State Law to provide property tax appraisals that are equal, uniform, and at market value. The State Comptroller Tax Division monitors and conducts reviews of our appraisal standards to make sure we adhere to State Law. What this means for the average property owner is that any increase or decrease in the valuation of a property is part of our effort to adhere to State Law. This will be accomplished by maintaining the highest standards in appraisal practices and lay by developing personnel who are professional and knowledgeable and operate under the stands of:

- The Property Tax Assistance Division of the Texas Comptroller's Office (PTAD)
- The International Association of Assessing Officers (IAAO)
- The Uniform Standards of Professional Appraisal Practice (USPAP)

The Appraisal District does not set tax rates. These tax rates are set by each of the individual taxing entities of Caldwell County. Lists of these entities are available upon request or can be found on our website.

## **Valuation Data**

Caldwell County is on a three year rotation for an onsite inspection for real property.

After analysis the overall market for rural acreage values increased an average of 7.68% from 2015 to 2016. Some rural areas saw a higher change. During our market analysis of rural acreage, we modified our rural land zones to better reflect current land market areas throughout the county. This change was reflected in our schedules that are 19 rural land market land zones. Total all real property Net Taxable value increased +6.35% from 2015 to 2016. There were several areas that may not have seen these changes and some areas may have seen a small decrease. Our Utility Package values are \$10,000 for the full water, septic, & sewer package. We updated our methods and adjustments for Lot Inventory to reflect 3 stages of a subdivision's development. Various market values may have been changed based on category types to reflect sale prices. Some residential neighborhoods increased from +1% to +7% based on sales analysis. The 2016 mineral values decreased some from 2015 due to market change in oil prices.

**Exemption Data:** The district has various exemptions that taxpayers may qualify for.

Homestead and Over 65 residential exemption. You may only apply for residence homestead exemption on one property in a tax year. A homestead may include up to 20 acres of land you actually use in the residential use (occupancy) of your home. To qualify for a homestead exemption, you must own and reside in your home on January 1 of the tax year. The age 65 or older or disability exemption for school taxes includes a school tax limitation or ceiling. Some taxing units such as county and cities have exemptions and tax ceilings limits. The filing of this application is between January 1 and April 30. You may file a late homestead exemption if you file it no later than one year after the date taxes become delinquent. There is also a Transfer of Tax Limitation or Ceiling Certificate if you move out of the county; this can transfer to the new county you reside in. There are other exemptions available. The State changed the mandatory homestead exemption amount from \$15,000 to \$25,000 for school districts for 2016. Please check our website or call our office.

### **AGRICULTURAL 1-D-1 OPEN SPACE AND WILDLIFE MANAGEMENT**

Qualified open-space land does not become ineligible for the special appraisal when a drought is declared by the Governor. We will work with our Farmers and Ranchers during the drought. We are currently requesting updated applications on each property as warranted. This will happen if the ownership changes or if the use changes. Other reason may apply.

The Agricultural Advisory Board is a three member board appointed by the Chief Appraiser with the advice and consent of the Board of Directors. The responsibility of the Agricultural Advisory Board is to advise the Chief Appraiser on the valuation and use of land that may be designated for open-space agricultural valuation within the district's boundaries and to assist in determining typical practices and standards used in various farming operations.

**PTAD REVIEWS**

Appraisal practices are governed by the Texas Property Tax Code and rules established by the Texas Comptroller of Public Accounts. The Property Tax Assistance Division conducts a Property Value Study and a Methods and Assistance Program review in alternating years. Results of both reviews are available on the Comptroller’s website.

The Property Value Study is conducted by the State Comptroller’s Office to estimate the taxable property value in each school district to measure the performance of Appraisal Districts. If the Appraisal District is within a 5% percent margin the State Comptroller will certify the local value to the Commissioner of Education. The findings of the study are used in the school funding formula for state aid. Caldwell CAD has received local value for Caldwell and all other entities.
